

EVERETT IS LOOKING FOR JAVA INFRASTRUCTURE CONSULTANTS.

Everett is looking for consultants in its “Secure Platform Services” (SPS) competence centre. SPS specialists operate the “mission critical” ICT area of middleware infrastructures. Everett offers career opportunities both for experienced consultants and young professionals/trainees. Trainees will receive an in-depth training program to become experts in these fields through the “Everett Academy” program. Everett SPS specialists participate in high-profile projects both in the Netherlands and abroad, mostly in top-500 companies and institutes. If this appeals to you then continue to read below.

Who are we?

Everett is a young and fast-growing company that was founded in 1999 and has locations in The Netherlands, UK and India, and currently has approximately 70 employees.

As a Systems Integrator, Everett is primarily specialized in the fast growing areas of “Identity and Access Management” (IAM), Governance, Risk management and Compliance (GRC) and Service Oriented Architectures (SOA). Projects in these areas always have a mission-critical character and are at the core of our clients’ IT infrastructure.

Everett Secure Platform Services (SPS) is responsible for embedding Everett’s IAM and SOA projects and solutions into the existing infrastructures of our clients.

As Enterprise-IT environments becomes increasingly more complex, there is a fundamental need for SPS specialists able to optimize and integrated Everett’s identity management and application integration/SOA solutions into the various enterprise infrastructure components at customer locations.

Everett is one of the fastest growing ICT-companies in the Dutch market, has a strong presence in the UK and is fast-growing in other regions.

Everett delivers total projects in the Netherlands and outside. Our activities include the whole spectrum from consulting, architecture and design to implementation, production and aftercare

Our culture can be described as informal, pleasant with an international atmosphere, professional, high quality and very focused on personal development. Everett’s goal is always to work with the latest (Internet) technologies in our projects.

Why work @Everett?

- **Innovative Technology**
Everett is an early adopter of market leading integration technologies
- **Challenging Projects**
